Enter College/University Name - Official Program Title

University of Pittsburgh Graduate School of Public & International Affairs - Minor in Civil Security and Disaster Management

Enter a Brief Program Description:

The University of Pittsburgh offers a minor in Civil Security and Disaster Management that may be completed as part of the Master of Public Administration, Master of International Development, or Master of Public and International Affairs degrees. Courses in emergency management may also be taken toward the PhD in Public and International Affairs, or the accelerated mid-career Master of Public Policy and Management program. Students will delve into topics dealing with advanced information technology in relation to monitoring and managing risk on local and global level. They will learn to use, design and adapt current technological infrastructure to support decision making in risk environments. Students will analyze policy problems and develop management skills to prepare them for meeting the challenges of emergencies and disasters in practice.
