

### ***Emergency Management Institute REVISED NIMS COURSE RELEASED***

**Purpose:**

Provide information on the release of NIMS/ICS Course the week of 18 March 2019.

**Background:**

FEMA released a revision of the National Incident Management System (NIMS) document in October 2017, as a result, thirty NIMS related courses were in revision based on the updates in NIMS. The next course in succession has been completed and will be released during the week of 18 March 2019. The remaining NIMS curriculum courses are in final revisions for NIMS 2017 and will be released as they are completed and approved for release.

**General:**

FEMAs National Integration Center and the FEMA Emergency Management Institute have completed and approved the release of a revised online NIMS course during the week of 18 March:

**IS-200.c, Basic Incident Command System for Initial Response, ICS 200**

This course provides training on, and resources for, personnel who are likely to assume an ICS supervisory position.

The Emergency Management Institute developed its ICS courses collaboratively with:

- National Wildfire Coordinating Group (NWCG)
- U.S. Department of Agriculture
- United State Fire Administration's National Fire Programs Branch

Note: IS-200.c is an updated version of the IS-200 course. If you have successfully completed IS-200 HCa, IS-200.b or IS-200.a, you may want to review the new version of the course. For credentialing purposes, the courses are equivalent.

EMI provides this online NIMS related training at no cost through the [EMI website](https://training.fema.gov/is/) (<https://training.fema.gov/is/>). The classroom versions of IS-200.c is available for download on the same site.

Students will have access to tests for the legacy versions of these courses (IS-200.b and IS-200.HCa) for 30 days after release of the new courses.

**Training Audience:**

The intended audience(s) are response personnel at the supervisory level who are involved with emergency planning, response, or recovery efforts.
