

National Emergency Management Advanced Academy (NEMAA) Overview / FY21 Application Process – DEADLINE EXTENDED

Purpose:

Program Description:

The National Emergency Management Advanced Academy is a component of the [Emergency Management Professional Program \(EMPP\)](https://training.fema.gov/empp/) (<https://training.fema.gov/empp/>)

NEMAA reinforces the qualities needed to lead emergency management programs, provides relevant management theories and concepts, and uses case studies to enhance emergency management (EM) skill sets. NEMAA participants work within a collaborative environment on projects and establish a network of peers.

NEMAA is designed for mid-level managers/professionals with a minimum of five (5) years' experience in an Emergency Management (EM) position who want to advance their skillset. Participants learn knowledge critical to performing EM responsibilities, such as program management and oversight, effective communication at all levels, integrated collaboration, and strategic thinking.

NEMAA provides participants the opportunity to demonstrate their critical thinking ability through a guided NEMAA Paper. Students apply the key learning concepts from the NEMAA curriculum relative to their own strengths and weaknesses, their organizations, and their own performance environments.
