April 11–14, 2016

Travel Dates:

December 6 and December 11, 2015
April 10 and April 15, 2016

Course Length:

This course is 4 days in length.

Location:

Emergency Management Institute (EMI)
National Emergency Training Center (NETC)
Emmitsburg, Maryland

Course Description:

This course offers a hands-on introduction to Hazus-MH, FEMA's GIS-based tool for analyzing the social and economic impacts from natural hazards including hurricanes, earthquakes and floods (riverine and coastal). Impact assessments for each hazard include shelter needs, short and long term economic losses, and debris estimations. Hazus-MH can also assess impacts on transportation and utilities, agricultural losses, and vehicle losses for selected hazards. Topics addressed in this course include overviews of building and population inventory components; options for describing the magnitude and extent of modeled hazards; loss estimation methodologies; and options for creating maps, tables, and reports that describe hazard impacts. Particular emphasis is given to exploring and interpreting the outputs that Hazus-MH can generate as well as discussing how that information can be applied to support

emergency management needs and goals. All activities are based on Hazus-MH provided inputs.

Course Goals:

Upon completion of this course, participants should be able to:

1. Learn the types of information that Hazus-MH can produce, as well as, how that information relates to emergency management.
2. Know how to navigate the Hazus-MH software user interface.
3. Develop a basic understanding of how Hazus generates information about exposure and losses related to flood, earthquake and hurricane hazards.

Prerequisites:

Skills equivalent to those taught in E0190, ArcGIS for Emergency Managers.

Continuing Education Units (CEU's):

EMI awards 2.8 CEUs for completion of this course.

Target Audience:

Federal, state, local, and tribal specialists, researchers, insurance companies, utilities, and others who are involved with or interested in understanding the social and economic impacts associated with floods, hurricanes, or earthquakes.

To Apply:

Complete a FEMA Form 119-25-1, General Admissions Application, with student signature and signature of supervisor or sponsoring agency official. Submit the application no later than 4 weeks prior to the start of the course. Mail, scan, or fax the application to:
