

### FEMA's Emergency Management Institute (EMI)-Hosted Deployer e-Forums

EMI is hosting a webinar series to inform and better prepare deploying Department of Homeland Security (DHS) Surge Capacity Force (SCF) personnel traveling in response to Hurricane Harvey. EMI e-Forums are webinars featuring dynamic panel members who discuss onsite conditions, organizational practices, and safety considerations for the area of operations. The EMI-hosted Deployer e-Forums offer the opportunity for a field-focused orientation to better prepare the large number of deployers to arrive as a more immediate valuable resource. During each EMI-hosted Deployer e-Forum, participants are able to communicate with on-site Joint Field Office (JFO) panel members through two-way chat and other features like screen-shares, video, and audience polling. The laptop and smartphone-accessible Deployer e-Forum allows participants to join in from any location with Wi-Fi.
