The Emergency Management Institute (EMI) has developed a process and tools to assist State Training Officers (STOs), Regional Training Managers (RTMs), and other training partners (authorities having jurisdiction (AHJs)) in the task of instructor management following the release of the October 2017 NIMS document.

Instructors authorized to deliver NIMS ICS curriculum will need to update their knowledge of both the refreshed NIMS Document and each of the courses they instruct.

To achieve a successful rollout of the NIMS ICS curriculum, it will be critical that each AHJ implement their tailored instructor management program. EMI is providing a framework and tools to assist the whole community in updating their training programs.

#### The agenda includes:

- FEMA EMI-Provided Tools: NIMS 2017 Learning Materials and Reusable Learning Objects (RLO)
- Course Rollout Webinars
- Way ahead for the NIMS Curriculum
- How is FEMA Managing FEMA Instructors?
- Instructor Management – The Task
  - NIMS ICS Core – “G” curriculum
  - NIMS ICS AHPS -- “L” curriculum
- Panel Discussion and Questions
