

## National Emergency Management Advanced Academy (NEMAA) Overview/FEMA Region VIII (Colorado Host) FY25 Application Process

### Purpose:

To provide an overview of the National Emergency Management Advanced Academy (NEMAA) Program and the Federal Fiscal Year (FY) 25 application process.

### Program Description:

The [National Emergency Management Advanced Academy](#) is a component of the [Emergency Management Professional Program \(EMPP\)](#).

NEMAA reinforces the qualities needed to lead Emergency Management (EM) programs by exploring relevant management theories and concepts and uses case studies to enhance EM skill sets. NEMAA participants work within a collaborative environment on projects and establish a network of peers.

NEMAA is designed for mid-level managers/professionals with a background and experience in an EM position who want to advance their careers. Participants gain the knowledge critical to EM responsibilities, such as program management and oversight, effective communication at all levels, integrated collaboration, and strategic thinking.

NEMAA provides participants the opportunity to demonstrate their critical thinking ability through a guided NEMAA paper. Participants apply the key learning concepts from the NEMAA curriculum relative to their own experiences, challenges within their organizations, and within their own contemporary community environments.

### Course Description:

The NEMAA Program consists of four resident courses, each **5 days** in length. Attendance at each course is required and **must** be attended in sequential order (listed below) during FY25. The courses are not offered individually.

- L0451: Application of Advanced Individual Concepts in EM
- L0452: Assessment of Teams in Professional Emergency Management
- L0453: Contemporary Issues in the Emergency Management Organization
- L0454: Advanced Concepts and Policy in the Emergency Management Profession

For more information, visit the [Emergency Management Advanced Academy page](#).

### Target Audience:

NEMAA is designed for EM professionals with a background and experience serving in an organization or having a significant role connected to the profession of EM, such as: state, local, tribal, territorial, military, Federal and consortium EM agencies or with an organization in an associated field, such as: public health, higher education, medical, and private sector organizations.
