

## Higher Education Program News December 8, 2016

### Higher Education Updates

As we enter the last month of the calendar year, the Higher Education Program continues to be very active. This week we participated in the first meeting of the Science & Technology Integration into Emergency Management Higher Education Curricula Special Interest Group (SIG). The discussion highlighted the immense science and technology research and development in critical areas for emergency management such as climate change and public health concerns. We began to explore the current Department of Homeland Security Science & Technology Centers of Excellence to identify areas of connection and collaboration and to extend invitation to join the SIG. If you are interested in working toward more fruitful integration of science and technology into emergency management curricula, please send an email, and we will connect you to the SIG.

This past Tuesday, we hosted the first in a series of webinars on teaching with cases. This webinar was presented by Dr. Jane Kushma of Jacksonville State University & Dr. Jean Slick of Royal Roads University. It was a very informative kick off, and we are very grateful for their time and efforts in providing this initial overview of “The Case for the Case.” If you are interested in receiving the transcript or slides from this event, please send a request. The culmination of this webinar resulted in several topics for webinars scheduled for January 11, February 8 and March 8, as well as the hearty interest in the development of the new Special Interest Group for Case Studies. Be on the lookout for future details on the upcoming webinars and contact me if you are interested in joining the Case Study SIG.

### The Emergency Management Institute is now on Social Media!

Follow and participate with EMI on [Twitter](#), [Facebook](#), and [LinkedIn](#).

**EM Higher Education Community Conference Calls – Please join us.** The purpose of the call is to: learn from the emergency management academic community what is new and exciting in their world; find out about ongoing projects; discuss higher education community needs that we can address; and provide the opportunity for callers to ask questions.

**The date for the next conference call is Thursday, December 15**, from 2:00-3:00 p.m. EST. Let us know if you have topics you would like to discuss. The call information is **800-320-4330, PIN: 376368**.

**EM Hi Ed Webinar Series** - If you are interested in sharing your expertise, or would like us to cover a specific topic in a future webinar, please contact Wendy Walsh at [wendy.walsh@fema.dhs.gov](mailto:wendy.walsh@fema.dhs.gov).

### Higher Education Program is hosting a Teaching with Cases Webinar Series

This webinar series provides an overview of the use of cases in teaching emergency management higher education programs. More information and a training announcement will be coming soon.

Additional webinars scheduled in the series in 2017:

- Webinar #2: Using Cases as Simulations in Teaching and Assessment  
Wednesday 11 January @ 3 PM EST
- Webinar #3: Using Cases as Examples in Teaching and Assessment  
Wednesday 8 February @ 3 PM EST
- Webinar #4: Using Cases for Their Intrinsic Value  
Wednesday 8 March @ 3 PM EST

[College List](#) - The EMI Higher Education Program keeps a [list](#) of colleges and universities that offer emergency management, homeland security, and related programs. EMI staff do not provide college recommendations or discuss the relative merits of the colleges and universities listed. Please send information updates to [FEMA-emi-collegelist@fema.dhs.gov](mailto:FEMA-emi-collegelist@fema.dhs.gov). Next year, the college list update templates will be pre-populated with your information.

**Mark Your Calendar for the next Hi Ed Symposium! [The 19<sup>th</sup> Annual Emergency Management Higher Education Symposium](#)** will be held June 5-8, 2017 at FEMA's National Emergency Training Center in Emmitsburg, Maryland.
