

## **Florida State University – Graduate Certificate in Emergency Management & Homeland Security**

The Emergency Management and Homeland Security Program at Florida State University offers a Graduate Certificate in Emergency Management & Homeland Security. The entire program is offered both in the classroom and online, and the online courses do not require any visits to the FSU campus.

The Graduate Certificate can be taken independently of other degree programs or as part of a degree program and does not require full enrollment in the university. All students in the certificate programs receive full FSU course credit that can later be applied toward a degree.

As an alternative to the residence and online options listed above, FSU offers the graduate certificate program at off-campus locations during one-week intensives by special arrangement.

Florida State University is accredited by the Southern Association of Colleges and Schools (SACS).
