Caldwell Community College and Technical Institute, Hudson - Certificate of Response and Recovery in Emergency Management

Caldwell Community College in North Carolina offers a Certificate of Response & Recovery in Emergency Management. The curriculum is designed to provide students with a foundation of technical and professional knowledge needed for emergency services delivery in local and state government agencies. Study involves both management and technical aspects of law enforcement, fire protection, emergency medical services and emergency planning. Students will learn technical and administrative skills such as investigative principles, hazardous materials, codes, standards, emergency agency operations and finance. Employment opportunities include ambulance services, fire/rescue agencies, law enforcement agencies, fire marshal offices, industrial firms, educational institutions, emergency management offices, and other government agencies. Employed persons should have opportunities for skilled and supervisory-level positions within their current organizations.
