

Capella University, Minneapolis - Master of Science in Emergency Management

The Master of Science in Emergency Management degree program prepares learners to understand and effectively address the complex issues surrounding the emergency management profession. The program is designed for learners who are currently emergency managers, public safety officials, planners, first responders, continuity professionals, and government agents prepared to advance their careers in the emergency management field. Learners acquire and apply knowledge concerning both foundational and contemporary issues, emergency management systems, and risk-based decision making. The program provides learners with opportunities for advanced study, leadership, and career advancement at the supervisory and administrative levels.

Core courses:

EMG7015: Application of Emergency Management Theory

EMG7025: Emergency Management Policy and the Administration of Emergencies and Disasters

EMG7035: Emergency Management Systems

EMG7045: Risk Management Application

EMG7095: Integrative Project for Emergency Management

PSL7010: 21st-Century Communication and Leadership

PSL7020: Professional Practice and Collaboration in a Diverse and Dynamic World

PSL7030: Introduction to Critical Analysis and Research

Capella University is accredited by The Higher Learning Commission and is a member of the North Central Association of Colleges and Schools (NCA), www.ncahlc.org.
