

College of the Mainland - Emergency Management Associate of Applied Science

College of the Mainland launched its Emergency Management program in the Fall of 2016. COM's program offers an Associate of Applied Science (AAS) degree provides opportunities for new students and practicing professionals to gain knowledge, skills, connections and credentials. This program has been approved by both the Texas Higher Education Coordinating Board (THECB, often referred to as "the Co Board") and the Southern Association of Colleges and Schools (SACS).

The COM Emergency Management Program is focused on workforce readiness. It emphasizes FEMA doctrine and is organized around the emergency management mission areas and professional emergency manager credentials. All COM classes are hybrid delivery. This means every course includes live classroom delivery with a substantial online participation component. Our classes are currently organized around 8 week blocks, with each class meeting one evening per week.
