

College of the Mainland - Emergency Management - Level I Certificate

College of the Mainland launched its Emergency Management program in the Fall of 2016. COM's Level I Certificate (17 hrs) is an introductory level certificate for students new to the field and looking to explore the basics, or professionals looking to begin documenting credentials. This program has been approved by both the Texas Higher Education Coordinating Board (THECB) and the Southern Association of Colleges and Schools (SACS).

The COM Emergency Management Program is focused on workforce readiness. It emphasizes FEMA doctrine and is organized around the emergency management mission areas and professional emergency manager credentials. All COM classes are hybrid delivery. This means every course includes live classroom delivery with a substantial online participation component. Our classes are currently organized around 8 week blocks, with each class meeting one evening per week.

Program Requirements (17 Credits):

EMAP 1400	Principles of Basic Emergency Management
EMAP 2300	Developing Volunteer Resources & Decision Making
EMAP 2301	Leadership and Effective Communication
EPCT 1313	Contingency Planning
EMAP 1440	Disaster Exercise Design and Evaluation
