

## **Coventry University - Disaster Management BSc Honours degree**

The Disaster Management BSc course is designed to address the needs of the rapidly emerging discipline of Disaster Management. It aims to equip graduates with the skills needed to practice both nationally and internationally in disaster mitigation, preparedness and response.

Reasons to choose Disaster Management BSc Honours degree:

- Worldwide career opportunities
- Course blends practical training and academically challenging study
- This course is recognised by the UK armed forces as a pre-entry degree programme
- Develop highly desirable graduate level transferable skills
- Professional Training opportunities in the UK and abroad
- Coventry University Centre for Disaster Management has over 10 years of consultancy and applied research, informing the delivery of courses in Disaster Management.

### **Future prospects**

A blend of academic and skills-based disciplines will ensure you develop the disaster management knowledge needed to prepare you for employment in a variety of organisations. These include the emergency services, NGO's, relief agencies, private companies and the United Nations Organisations. Graduates are also equipped to pursue study at postgraduate level or undertake specialist professional development.

### **Course content**

This degree develops problem solving, management and communication skills that are needed to develop a successful career with one of the many organisations working in disaster management. You will study the phases within the cycle of disaster management and the role of the government, international agencies and non-government organisations operating in disaster management allows students to choose a theme to study, for example options may include languages, development students, Geographical Information Systems or International Relations.
