

Drury University – Associate of Science degree in Emergency Management

Drury University offers an Associate of Science degree in Emergency Management. The Emergency Management degree programs are designed to provide a well-rounded learning experience to current and future emergency management leaders in the public, private, and voluntary sectors. The curriculum blends theoretical perspectives with professional practice and emphasizes application of knowledge to real-world practical settings. It highlights the fundamentals of emergency management while providing an interdisciplinary course of study in the skills and practices necessary to enhance resiliency for communities or organizations.

The Associate of Science in Emergency Management requires 62 credit:
