

## Northeastern University – Master of Arts in Homeland Security

The Master of Arts degree in Homeland Security is intended to prepare the next generation of emergency managers and homeland security professionals for leadership roles in the public and private sectors. The degree offers a comprehensive program of studies covering core elements of homeland security and emergency management at the graduate level, including management skills, intelligence gathering and analysis, risk management, emergency planning and management, legal issues, technological issues and social psychology. The MA in Homeland Security program is designed to develop high-level operational expertise through the application of the above content to the implementation of emergency response protocols as executed in the United States. We have concentrations in: Emergency Management and Geographic Information Technologies Concentration; Organization and Infrastructure Continuity Concentration; and a concentration and graduate certificate in Port Security.

### Required Courses:

- Introduction to Homeland Security
- The Unconventional Threat to Homeland Security
- Technology for Homeland Security
- Intelligence for Homeland Security
- Critical Infrastructure: Vulnerability Analysis and Protection
- Multidisciplinary Approaches to Homeland Security
- Crisis Communication

Credits for Degree Completion: 45-47

Northeastern University is accredited by the New England Association of Schools and Colleges (NEASC)
