

Purdue University Global – Master of Science in Homeland Security and Emergency Management

The Purdue University Global Master of Science in Homeland Security and Emergency Management's curriculum focuses on the legal, social, business, economic, and political aspects of the industry. Our Web-based courses are taught by experienced industry professionals and are available virtually anytime, anywhere you have access to the Internet. With this online master's degree program, you will explore how societal institutions, government agencies, lawmakers, businesses, and other organizations find sustainable security and emergency management solutions on a local, regional, national, and global level.
