

Rosemont College - Master of Arts in Homeland Security

The Master of Arts in Homeland Security (MA-HLS) program provides a unique graduate level learning experience that prepares students to analyze, mitigate, and manage the complex issues related to natural and human-made disasters including disaster response, emergency management, public health issues, cyber security, the psychology of terrorism, and the role of law enforcement and the military in protecting the general population. The program examines these topics through the lens of the Cornelian educational experience with modern Catholic social justice and civil liberties teaching advocating for the dignity of each human being, pursuit of the common good, protection of the poor and the marginalized, and care for God's creation.

Required Courses (36 required credits)

HLS 3100: Introduction to Homeland Security
GSP 2013: Research and Writing for Global Security & Human Rights Protection
