

Southwestern College – Bachelor of Science in Security Management

With the increasing need for security in a changing world, security professionals with expertise in all aspects of security management and operations administration will be in demand. Security professionals enable private and public organizations to strengthen existing security measures and initiate policies and procedures to ensure a safe and secure working environment, as well as limit organizational losses.

The Security Management degree is targeted to those pursuing employment opportunities in private or government security, including security management, physical security, loss prevention, information security, homeland security, emergency management and crime prevention. Our program is enhanced with the Naval Postgraduate School Curriculum.

Required Core Courses:

Course Code	Course Title
SMGT311	Introduction to Security
SMGT315	Physical Security
SMGT320	Information Security
SMGT321	Homeland Security Fundamentals
SMGT411	Loss Prevention and Crime Prevention
SMGT415	Legal Aspects of Security
