

Southwestern College Professional Studies – Master of Science in Security Administration

Southwestern College's Master of Science in Security Administration (MSSA) program prepares learners to take on increasing levels of responsibility and leadership positions as mid-to-upper level managers in the security industry. In addition to knowledge in security-related subject matter, individuals will master problem solving techniques, leadership skills, critical thinking and application of theory to practice.

The program is directed toward those not only entering into but advancing in the growing security industry in private or government security fields such as physical security, vulnerability assessment, information security, homeland security, emergency management, risk management, contingency and continuity planning and crime prevention. Courses concentrate on business strategies, risk management, planning, assessment, best practices and security concepts and practices.

Required Core Courses:

Course Code	Course Title
MSA500	Contemporary Security Administration
MSA505	Security Administration Business Strategies
MSA510	Enterprise Risk Management
MSA515	Physical Security Planning and Vulnerability Assessment
MSA520	Administration of Information Security
MSA560	Security Law
MSA565	Organizational Security Investigations
MSA570	Homeland Security Defense and Administration
MSA575	Best Practices and Special Issues in Homeland Security
MSA580	Terrorism: Perspectives and Consequence Management
MSA585	Emergency, Disaster, and Contingency Management
CAPS600	Graduate Project

Southwestern College is accredited by The Higher Learning Commission (HLC).
