

**University at Albany, College of Emergency Preparedness, Homeland Security and Cybersecurity-- Major in Emergency Preparedness, Homeland Security and Cybersecurity**

The major in Emergency Preparedness, Homeland Security and Cybersecurity is designed to provide students with broad overview of these three critical fields. Students in the major will develop critical thinking skills and subject area knowledge of public policy, management and risk analysis. The major program provides a solid liberal arts education that emphasizes critical thinking, oral and written communication, creativity and innovation, problem solving skills, cultural literacy, and interpersonal and teamwork skills. In addition, the major will also emphasize leadership, public administration, management, risk analysis, ethics, policy making, planning, strategic communication, and systemic thinking. One of the unique and central elements of this major is the focus on experiential learning.

**Required Core Courses:**

The major requires a total of 13 courses, for a total of 39 credits. All students must select one concentration from the three fields. Students will be required to take the core courses and applied learning courses, for a total of 9 courses, which will help extend their classroom knowledge into applied environments. The remaining 4 courses will be focused on their concentration, where at least half of the concentration courses will be at the 300-level or above.
