

University of California, Irvine – Certificate in Emergency Management and Disaster Recovery

Facility management is the practice of coordinating the physical work environment with the people and work of an organization. This discipline integrates the principles of business administration, architecture, and the behavioral and engineering sciences.

This certificate program furthers the understanding of this diverse field with an innovative series of courses focusing on design and management of facilities, from concept to installation, to long-term efficient use.

Required courses (9 units)

SOCECOL X499	Fundamentals of Facilities Management (3.00 Units)
SOCECOL X499.1	Facilities Design and Space Planning (3.00 Units)
MGMT X442.7	Leadership for Facilities Professionals (3.00 Units)

Elective courses (total of 9 units)

ENGRMAE X429.1	Principles of Heating, Ventilation, Air Conditioning (HVAC) (3.00 Units)
MGMT X494.8	Financial Analysis for Facility Professionals (3.00 Units)
