

University of Denver, University College – Masters in Security Management with a Concentration and Graduate Certificate

The University of Denver, University College is offering a Master's in Security Management with a Concentration and Graduate Certificate in Emergency Planning and Response, which can be earned entirely online. Today's security positions are more complex than ever, requiring leadership and management of security operations addressing personnel, property, facility, information, and business continuity security. Graduates of the Master's and Certificate program will be able to:

- Lead the strategic, planning and management efforts of private and public sector organization
- Evaluate and analyze emerging security issues, regulations, and threats
- Analyze financial implications of security program and options
- Protect vital assets such as people, physical structures and equipment, intellectual property, information and maintain post-incident continuity of operations.

A Master of Applied Science in Security Management can be earned in less than two years by completing 48 credit hours. Graduate certificates allow professionals to add a powerful skill set to their capabilities in one year by completing 24 credit hours. Credits earned as part of a graduate certificate can be applied toward the completion of a University College master's degree.

Program Requirements:

Total 48 credit hours
