University of Florida – Bachelor of Science in Fire and Emergency Services

This degree program is designed to build on the student's experience in the fire service and to prepare graduates to lead public sector fire, EMS, and emergency management units. Applicants are usually firefighters, paramedics, EMT, or emergency managers, working as active members of a career or volunteer fire department, or in EMS and emergency management positions. Students are entering these careers are also welcome to apply.

Leaders of Fire and Emergency Services (FES) are increasingly facing new challenges in technology, growing emergency service demands, contemporary human resource problems and fiscal accountability that are affecting and will continue to affect FES organizations and their administrators. The University of Florida's Bachelor's degree in Fire and Emergency Services will prepare you to be a leader who can manage all aspects of the modern emergency response agency. The coursework has three specializations – Fire Management, EMS Management, and Emergency Management.

All of the courses are distance education through the Internet. The degrees are awarded by the University of Florida.

The University of Florida is accredited by Southern Association of Colleges and Schools.
