

University of Nebraska at Omaha – Minor in Emergency Management

University of Nebraska at Omaha offers a Minor in Emergency Management. The required courses constitute 6 of the 10 core courses currently required in the B.S Emergency Management curriculum. Importantly, these courses provide an in depth cross section of the Emergency Management profession and will provide the student with critical knowledge commensurate with an academic minor program. The minor in Emergency Management should prove to be an attractive addition to course work within Public Administration, Criminology and Criminal Justice, Information Management, and Engineering Degree Fields such as Civil Engineering, Mechanical Engineering, Building and Construction Engineering, as well as Public Works. Establishing a minor in Emergency Management will enable students to gain valuable information that will significantly enhance their primary professional and employability within their chosen field.

Required Courses

EMGT 1000: Introduction to Emergency Management - 3 credit(s)

EMGT 2020: Emergency Management Strategies and Communications - 3 credit(s)

EMGT 2050: Political and Legal Foundations - 3 credit(s)

EMGT 3040: Preparedness Planning and Risk Mitigation - 3 credit(s)

EMGT 3080: Agency Collaboration During Disasters - 3 credit(s)
