The problems facing today’s emergency management professionals are complex and multifaceted. The next generation of emergency professionals will require high levels of competencies in operational expertise, academic credentials, response protocols, policy and strategic planning. UW-Green Bay’s Emergency Management, Planning and Administration program is the study of the core elements of the cycle of emergency management. This program is applicable to all professions.

If you have an applied associate degree from any Wisconsin Technical College System campus or other regionally accredited institution, students can transfer in a minimum of 60 credits into UW-Green Bay’s Bachelor of Applied Studies degree in Integrative Leadership Studies.

Five three credit classes are required for the emphasis area - a total of 15 credits.

The five Courses required courses in the Certificate Program are:

- Principles and Practices of Emergency Management
- Strategic Emergency Preparedness, Planning, and Implementation
- Principles and Practices of Disaster Response Operations and Management
- Disaster Recovery
- Political and Policy Dimensions of Emergency Management

You need 120 hours to graduate with an bachelor’s degree.

The University of Wisconsin – Green Bay is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools.
