

K2300 Intermediate EOC Functions (virtually facilitated)

Course Dates:

- May 19-22, 2020
- May 26-29, 2020
- June 8-11, 2020
- July 20-23, 2020
- August 10-13, 2020
- September 14-17, 2020
- October 5-8, 2020

Each virtual offering will be limited to 18 students on a first registered basis. [Apply for the K2300 course](https://training.fema.gov/generaladmissionsapplication/) (<https://training.fema.gov/generaladmissionsapplication/>).

Travel Dates:

Course will be virtually delivered.

Course Length:

This course is 4 days in length, 8 AM to 3 PM, Eastern Standard Time.

Location:

Virtually facilitated over Adobe Connect

Cost:

Free, students must have a FEMA student identification number (SID) computer and stable access to the internet.

Course Description:

The Emergency Management Institute (EMI) is currently offering seven Intermediate Emergency Operations Center Functions (K2300) courses to Federal, State, Local, Tribal, Territorial students during calendar year 2020. The instructors and electronic delivery will be fully funded by the Emergency Management Institute. The course will be delivered in a virtual environment, completely on-line. Class size is limited to 18 students.

The K2300 Intermediate Emergency Operations Center Functions is a four-day course with the goal of assisting individuals and jurisdictions who desire to develop or improve their Emergency Operation Centers (EOC). By the end of the course, students will be able to demonstrate, through activities and a Final Exam, the managerial and operational roles of the modern-day EOC as a NIMS Command and Coordination functional group operating within a Multiagency Coordination System (MACS).

Course Goal:

- Explain the EOC's critical link to the other NIMS Command and Coordination Structures.
- Identify EOC staffing solutions by aligning EOC Skillsets to common EOC structures.
- Explain the planning, operational and resourcing functions of the EOC.
- Using a scenario, identify the essential elements of information (EEI) that support EOC decision making and information sharing.
- Using a scenario identify changes in EOC activation level, staffing, resources and information requirements for an expanding incident.
- Identify the role of an EOC during the transition to recovery.
- Explain the location, design, equipment and technology considerations for the EOC.

To Apply:

Prospective students should submit their requests directly to the [Emergency Management Institute's online admissions system](https://training.fema.gov/generaladmissionsapplication/) (<https://training.fema.gov/generaladmissionsapplication/>).

TRAINING OPPORTUNITY

Prerequisites:

Before the course, individuals should complete the [IS-2200 Basic Emergency Operations Center Functions course](https://training.fema.gov/is/courseoverview.aspx?code=IS-2200) (<https://training.fema.gov/is/courseoverview.aspx?code=IS-2200>).

Continuing Education Units (CEU's):

EMI awards 2.2 CEUs for completion of this course.

EMI Training Point of Contact:

For additional information contact or to schedule a course specifically for your jurisdiction, contact Joe Goldsberry, Course Manager, at (202) 702-2012, email at joseph.goldsberry@fema.dhs.gov and the EMI Mission Support Branch at fema-ms-branch@fema.dhs.gov.
